

 **Blue Ocean Gear**  
Farallon Smart Buoy Charging System  
**QUICK START GUIDE**

SCAN ME

### STEP 1: Supply Power to the Charger

- Connect barrel jack connector into the back of the Charger.
- Connect the AC/DC power adaptor to the power cord and plug into a standard wall outlet.
- Blue LED will illuminate. This indicates the Charger is ON.

### STEP 2: Place & Orient Buoy on Charger

- Place Smart Buoy on Charger so that the bottom line attachment ring inserts into the Charger and the topside of the buoy (side with stickers) faces you.

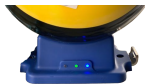

### STEP 3: Check For Correct Orientation of Buoy

- The Charger should illuminate with a green, blinking LED. If green LED light does not come on, rotate the buoy so that the top-side sealing screw is on the left-hand-side, facing you.

### STEP 4: Wait For A Complete Charge

- A solid green LED light indicates complete charge of the Smart Buoy.

-  Charge Fault
-  Charge Power On, Solid
-  Charging, Blinking
-  Done Charging, Solid
